Travel with a Purpose

Make your next group outing one that really counts. Make it exciting, challenging and above all, memorable. River Expeditions loves hosting groups and sharing our passion and knowledge of the outdoors - it's what we do best.

Your group will share fun, fellowship and adventures in West Virginia's New River Gorge National Park. Outdoor experiences, including rafting, have powerful physical, emotional, intellectual and spiritual influences on young people. These influences make a lasting impact and support healthy development among youth.
